

OUR DELL PARTNERDIRECT CERTIFICATION IN ENTERPRISE ARCHITECTURE CAN HELP YOU. HERE'S HOW.

We're excited to announce that we're now Certified Partners with Dell PartnerDirect in Enterprise Architecture.

Investing the time and resources to gain this prestigious certification has increased our server and storage expertise, enabling us to be an even more valuable, strategic partner for you.

The benefits of this certification are numerous, and the exclusive knowledge and best-practices information we have gained better position us to deliver the best solutions for your needs:

Our Dell PartnerDirect Enterprise Architecture certification:

- is designed to provide you with access to Dell's innovative enterprise solutions for energy efficiency, computing flexibility and virtualization
- enables us to develop flexible architecture solutions that can help reduce long-term costs for your business
- allows us to align with a leader in "Green IT" and offer you energy- efficient products such as a Dell™ PowerEdge™ 2970 Energy Smart server that can deliver up to 25% greater performance per watt while reducing power consumption by up to 21%
- helps your businesses run faster, better and smarter

Please feel free to contact us to learn more about Dell's cutting-edge enterprise products, including the award-winning Dell EqualLogic® PS Series.

We look forward to putting our expertise to work for you.
